NOTE FOR: Mr. John N. McMahon
Executive Director, Central Intelligence Agency

FROM: [REDACTED]

25X1

Special Assistant for Nuclear Proliferation
Intelligence

SUBJECT: Revised Draft of the Memo to Holders/Nuclear
Terrorism

The subject draft (attached) incorporates additional material (indicated throughout the text by a line in the left margin) along the lines that you, the DCI, and other NFIB Principals suggested at last week's NFIB meeting. The major addition is the front section that, inter alia, mentions the capabilities of terrorist groups--a consideration that you thought should be highlighted. Please let me know if this approach is satisfactory. I would like to seek the DCI's concurrence today or tomorrow in order to get the revised draft to the NFIB in time for its meeting next Tuesday, 2 February.
